DETAILED ACTION

Allowable Subject Matter

Claims 2 and 5 are allowed.

The following is an examiner's statement of reasons for allowance:

There is no teaching or suggestion in the art of record disclosing a conductive bump for a semiconductor chip comprising all of the limitations of claim 2 in combination, particularly wherein the first metal layer has a base portion bonded to the bonding pad and is in contact with the second metal layer through a peripheral portion extending from the base portion in a transverse direction relative to the base portion and cooperating with the base portion to confine a recess therebetween in combination with all other limitations of claim 2. Therefore, independent claim 2 is deemed allowable along with its dependent claim 5.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
